

# Cartoonists & Comics in Editor & Publisher: A mid-1990s Bibliography (Comics Stuff #5)

by Michael Rhode

Editor & Publisher has been covering the concerns of newspapers for over 100 years. This bibliography begins to list recent, substantial articles in E&P, and most of the interesting unsigned small blurbs. Much, but not all, of the information on cartoonists is usually in the Syndicates/News Services column. According to Alan Holtz, author of the *Stripper's Guide* (an electronic index to newspaper comic strips), E&P added its Syndicates column in 1923 and before that had very little coverage of syndicates and comic strips. Since 1925, E&P has published an annual Directory of Syndicate Services each year. This listing is chronological. \*Most of these articles can be purchased online at <http://archives.mediainfo.com/>. All of these articles will be, and many others from different sources are, listed in the *Comics Research Bibliography* by John Bullough & Mike Rhode available online at: <http://www.rpi.edu/~bulloj/comxbib.html>. *Comics Stuff* is an occasional publication showcasing aspects of comics collecting and indexing beyond the comic book and toy price guides. \* marks new additions.
